

## Who are Cadist Consulting?

**Cadist Consulting** was founded in April 2002 by Damian Sheather, a Software Engineer with over a decade of IT Consulting experience. Damian brought his own clients into the business – clients he has been supporting since 1993, and the business itself became a full-time proposition.

## What can Cadist Consulting do for my business?

**Cadist Consulting** offers IT consultancy services to small to medium sized businesses, and business units of larger corporations and Government Departments, at competitive rates.

**Cadist Consulting** specialise in the following:

- Business Analysis
- Business Application Development and Maintenance
- Visual Basic, SQL Server and Microsoft Access
- Training
- General IT Consultancy

If you are tired of dealing with larger IT Firms who seem to not want to “waste time” on your small to medium sized project, then call Cadist Consulting. We are more than happy to discuss your IT needs with you, and to proceed with assistance and solutions for your business. All you need to do is ask!!

## What if I am a Government Department?

Damian has extensive experience in providing IT Consulting, support and development expertise to many Queensland Government departments and agencies over the years. To complement this experience, **Cadist Consulting** has a current GITC Agreement with the State of Queensland, GITC Agreement Q-2134, allowing Government Departments to deal directly with **Cadist Consulting**, saving the time and expense of dealing with a third party, eg: a recruitment agency.
